Shihari Ayodya

Aspiring Software Developer

shihariayodya@gmail.com | +94 715542169 | Bandarawela, Sri Lanka | GitHub | LinkedIn

Profile

Information Systems undergraduate specializing in Software Development and Data Solutions. Experienced in building responsive web applications using React.js, Python/Flask, Node.js, and relational databases. Skilled in designing intuitive frontend components, integrating RESTful APIs, and processing data pipelines. Seeking a Software Development Internship to contribute to scalable systems and grow technical capabilities.

Education

Bachelor of Science in Information Systems 07/2024 – 07/2028
Faculty of Computing, Sabaragamuwa University of Sri Lanka

G.C.E. Advanced Level, Physical Science Stream 2022(23)
Bandarawela Central College

Skills

Data Analytics & BI: Power BI, SQL, Python, Excel, Google Colab
Databases: MySQL, PostgreSQL, Firebase
Web Development: React.js, Python/Flask, HTML, CSS

Projects

Scholar-Track, Task Management System (Group Project) *React.js, Flask, PostgreSQL, OCR, NLP*

- Built an automated OCR and NLP pipeline that extracts tasks from academic documents.
- Implemented an email reminder system and core user interface components using React.js.

PetCare.lk, Pet Adoption & Care Platform (Group Project), Ongoing *React.js, Node.js*

- Conceived the platform and planned its features (adoption, lost-and-found, vet directory) in collaboration with a teammate.
- Built the Home, Browse/Search, Lost & Found, Vet Directory, and Find Match pages in React.js, plus an English/Sinhala language toggle.

Personal Productivity Daily Planner *React.js, Local Storage*

- Developed a calm, privacy-focused productivity web application to track daily study hours, hobby goals, tasks, and internship applications.
- Implemented local-first browser persistence with JSON-based backup and restore functionality for seamless data portability.

Crochet Business Web Showcase & Order System *React.js, HTML, CSS*

- Built a frontend where customers browse crochet products and generate a pre-filled WhatsApp order message.

Sri Lanka Tourism Data Analysis, Ongoing *Python, MySQL, Power BI*

- Cleaned and prepared tourist arrival data from 2023 to 2025 using Python (Pandas), then explored trends and seasonal patterns through exploratory data analysis.
- Wrote SQL queries in MySQL to find peak and off-peak months and to compare the top source countries by arrivals.
- Building an interactive Power BI dashboard to show arrival trends, seasonality, and source-country comparison.

Certificates

Front-End Web Development, CODL, University of Moratuwa
Python for Beginners, CODL, University of Moratuwa
Power BI Essential Training, LinkedIn Learning Jun 2026
Data Analytics for Business Professionals, LinkedIn Learning May 2026
Learning Data Analytics: 1 Foundations, LinkedIn Learning May 2026

Achievements & Hackathons

Top 30, Data Storm 7.0 (University of Moratuwa × OCTAVE, John Keells Group)
Team WeCodeX placed among the top 30 teams in a 36-hour data science hackathon solving a real-world industry problem.

Top 15 Finalist, CryptX 2.0 Hackathon (University of Sri Jayewardenepura, ICT Society)
Team WeCodeX was selected among the top 15 finalist teams.

Volunteering & Leadership

Rotaract Club of SUSL, Club Designer 2025 – Present

- Project Chair (2026) and Co-Chair (2025) of the SDG Project Series: Life Below Water.

Sabra Leos, Club Designer 2025 – Present

IEEE, Member 2026 – Present

Additional Experience

Founder, Handmade Crochet Small Business

- Ran an independent crochet business from product design to customer service, and used a Facebook page to market products, answer customer questions, and drive sales.
